EXPERTISE

- Biomedical Equipment Management
- Preventive Maintenance Planning
- Medical Device Documentation
- NABH Accreditation Compliance
- ISO Quality Management System (QMS)
- Calibration Management
- Medical Gas Pipeline System (MGPS) Monitoring
- Technical Documentation & Record Management
- SAP
- ERP Software
- Email Management

EDUCATION

B.TECH
Biomedical Engineering
Parul Univeristy-2024
8.02 CGPA

DIPLOMA
Biomedical Engineering
Parul University (GTU)-2021
9.66 CGPA

PROFILE

Experienced Biomedical Engineer with expertise in hospital and manufacturing environments, specializing in biomedical equipment servicing, preventive maintenance, calibration, quality control, and technical documentation. Hands-on experience in NABH and ISO audits, MGPS monitoring, equipment compliance, and preparing technical reports. Strong knowledge of healthcare standards, regulatory requirements, troubleshooting, and cross-functional coordination to ensure equipment reliability, operational efficiency, and patient safety.

PROFESSIONAL EXPERIENCE

BIOMEDICAL ENGINEER | MAY 2025 – PRESENT

KRISHNA SHALBY-210-BED NABH & AACI ACCREDITED MULTI-SPECIALTY HOSPITAL

- Managed **455+ biomedical assets** across a 210-bed multi-specialty hospital.
- Performed preventive, corrective, and breakdown maintenance in coordination with vendors.
- Maintained calibration records, equipment history, and maintenance documentation.
- Supported **NABH compliance** through sops, departmental documentation, and quality records.
- Monitored **MGPS, air compressors, vacuum systems, and critical care equipment**.

BIOMEDICAL ENGINEER | AUG 2024 – DEC 2024

DR. CARDIO, VADODARA

- Performed pre-dispatch testing, installation, and commissioning of biomedical devices.
- Delivered product demonstrations, customer training, and technical support.
- Executed preventive maintenance, troubleshooting, and after-sales service.
- Supported **CDSCO audit** documentation and regulatory compliance.
- Assisted in product promotion and technical presentations for healthcare professionals.

DOCUMENTATION ENGINEER | JAN 2024 – JUL 2024

MAX VENTILATOR, VADODARA

- Prepared sops, master device files (MDF), and controlled technical documentation.
- Supported **iso audits** by maintaining quality records and audit documentation.
- Managed BOMS, material codes, and engineering data in the ERP system.
- Ensured document control, revision management, and QMS compliance.

ADDITIONAL EXPERIENCE

PART-TIME DOCUMENTATION ENGINEER (NABH) JUNE 2026

ADWAIT HOSPITAL, AHMEDABAD

- Managed biomedical department documentation for **NABH accreditation**.
- Prepared checklists, calibration records, PM records, and quality documents.
- Maintained audit-ready documentation and supported successful NABH compliance.
