

SAKSHATA BASTAWADKAR (CARDIOVASCULAR PERFUSIONIST)

✉ bastawadkarsakshata96@gmail.com

☎ 9148118053

📍 Desur, Belagavi Tal/Dist : Belagavi

🚀 SKILLS

- ECG Interpretation :- Identifies arrhythmias and cardiac abnormalities.
- Acid-Base Balance Management
- Manage perfusion-related emergencies.
- Cardiopulmonary Bypass (CPB):- Operate HLMs, managing blood flow, oxygenation, and temperature control during open-heart procedures.
- Intra-aortic Balloon Pump (IABP):- Competently insert, program, and monitor IABP.
- Staff Monitoring

👤 PERSONAL DETAILS

Date of Birth : 30/06/2004

Birth

Marital Status : Single

Nationality : India

Gender : Female

Profession : CARDIOVASCULAR PERFUSIONIST

🎯 OBJECTIVE

Dedicated and detail-oriented Perfusionist with hands-on experience in cardiopulmonary bypass, extracorporeal circulation, myocardial protection, and perioperative patient management during cardiac procedures. Skilled in operating heart-lung machines, monitoring anticoagulation, and collaborating with cardiac surgeons, anesthesiologists, and OT teams to ensure optimal patient outcomes.

🎓 EDUCATION

B.Sc. Perfusion Technology August 2022 - February 2026
KLE Jawaharlal Nehru Medical College, Belagavi.

First Class

12th PUC June 2020 - March 2022
Maratha Mandal Pre - University College Chavhat Galli, Belagavi.
First Class

10th SSLC June 2019 - July 2020
Chatrapati Shahu Charitable Trust's High School Desur, Belagavi.
Distinction

✚ CLINICAL EXPERIENCE

KLE PRABHAKAR KORE HOSPITAL BELGAUM
(August 2022 - February 2026)

MOTIVATED AND DETAIL-ORIENTED PERFUSIONIST TRAINED IN CARDIOPULMONARY BYPASS AND PERFUSION TECHNOLOGIES

- Managed cardiopulmonary bypass procedures for a diverse range of cardiac surgeries, ensuring optimal patient perfusion and oxygenation.
- Operated and maintained complex perfusion equipment, including heart-lung machines and intra-aortic balloon pumps.
- Collaborated with surgeons, anaesthesiologists, and nurses to develop and implement individualized perfusion plans based on patient-specific needs.
- Monitored and analysed haemodynamic parameters during CPB, proactively adjusting interventions to maintain stable physiological conditions.
- Administered anticoagulation medications and managed blood products during perfusion.
- Transplant & Organ Preservation(Exposure)
Heart/Lung transplant perfusion assistance Organ procurement &

★ CORE COMPETENCIES

- Cardiopulmonary Bypass (Adult & Pediatric)
- Intra-aortic Balloon Pump (IABP)
- Ventricular Assist Devices (VAD, IABP)
- Myocardial Protection Strategies
- Blood Conservation & Autotransfusion
- Hemodynamic Monitoring & ACT Management
- Sterile Technique & OR Safety
- Equipment Setup.
- Emergency Response & Crisis Management
- Cardiac Intensive Therapy Unit (ITU) Observation
- Cardiac Catheterization Laborator (Cathlab) Observation
- Cardiology Outpatient Department (OPD) Clinical Experience (ECG,INR,PT,RBS Test, suture removal)

★ VALUE ADDED COURSES AND CERTIFICATIONS

- Invasive Hemodynamic Monitoring In Intensive Cardiovascular Care
- Basics Of Mechanical Ventilation
- Basics Of Perioperative Transesophageal Echocardiography
- Basic Life Support (BLS)
- Advanced Cardiac Life Support (ACLS)
