**Address: C-44, Shivkrupa Society, B/H Saurabh Park, Gotri,  
Vadodara – 390023**

**CAREER OBJECTIVE: -**

A dedicated, performance-driven Technical & Facilities Engineering Professional with extensive experience in multi-specialty hospital engineering, preventive maintenance, and critical infrastructure management. Seeking a leadership role in a reputed healthcare or corporate organization to ensure seamless facility operations, enhance system reliability, strengthen safety compliance, and support high standards of patient care through robust engineering practices and operational excellence.

**CAREER OVERVIEW: -**

**SRKMPL Unit Tricolour Hospital Vadodara, BHIRC Vadodara &  
Baroda Heart Multispecialty Hospital – Bharuch May 2023 – Present**

**Tricolour hospital - Vadodara**, (NABH Accredited Hospital), which is a **125 bedded Multi specialty hospital chain** engaged in primary as well as tertiary care services. The Responsibility areas are:

- Leading end-to-end Technical, Engineering & Facility Operations across multi-specialty hospital units. as per **NABH standards (5 th Edition)** & ensuring proper implementation.
- Successfully handled multiple NABH assessments including **3rd, in BHIRC, 5th, TCH Nursing Excellence NABH Compliance**. as per **NABH** requirement
- Executed major infrastructure projects such as chilled-water line re-insulation, new OPD block development, Molecular Lab setup, and CT-Scan installation.
- Responsible for comprehensive PPM & O&M of the following critical equipment:
  - DG Sets: 750 kVA
  - Chillers: 180 TR
  - VRF Systems: Mitsubishi
  - HVAC
  - Dehumidifiers, STP, UPS (120 kVA)
  - Central Suction & Air Compressor Systems
  - Liquid Medical Oxygen (LMO) Tank & Manifold System
  - HT 11 kV Transformer
  - Dialysis RO Plant 1000ltr/500ltr
  - WTP Plant

- Elevator (Omega) 1750 tone
- Key responsibilities include:
- Monitoring transformer parameters such as oil levels, winding temperatures, conservator tank functionality, and overall HT system performance
- Troubleshooting & maintaining electrical systems, LT/HT panels, power distribution networks, and critical control panels.
- Managing Fire Detection & Alarm Systems including beam detectors, smoke detectors, MCPs, sprinklers, hydrant networks, and evacuation systems.
- Troubleshooting and maintaining electrical systems, LT/HT panels, distribution networks, and dedicated control circuits.
- Managing Fire Detection & Alarm Systems: beam detectors, smoke detectors, MCPs, sprinklers, hydrants, and emergency evacuation systems.
- Ensuring alignment with NABH standards, statutory compliance, electrical safety norms, and quality benchmarks.
- Leading vendor coordination, AMC management, manpower supervision, audits, and technical documentation.

#### **Baroda Heart Institute & Research Centre – Vadodara August 2022 to May 2023**

- DG Sets: 250 kVA
- VRF Systems: Daiken
- Central Suction
- Liquid Medical Oxygen (LMO) Tank & Manifold System
- HT 315 kV Transformer
- Dialysis RO Plant 500ltr/250ltr

#### **Siemens Health Care pvt. ltd – 24 Jun 2021 to March - 2022**

- Provided technical assistance for medical equipment and facility support systems.
- Performed preventive and corrective maintenance to ensure equipment uptime.
- Ensured execution of SOPs with high safety and quality standards.
- Shift Engineer – HVAC Operations & Maintenance
- S.S. Engineering (Indian Oil Corporation Ltd.)
- Operated and monitored central chiller plants and HVAC systems.
- Prepared daily operational and system performance reports.

- Ensured energy-efficient and safe operation of HVAC infrastructure.

#### **Cinépolis India Pvt. Ltd. July 2014 to Oct. 2020**

##### The responsibility areas are:

- Supervised electrical, HVAC, plumbing, and firefighting operations across multiplex facilities.
- Managed BMS, UPS, HVAC, MEP services, vendor management, AMC contracts, and statutory compliance.
- Conducted fire drills, emergency preparedness exercises, and safety audits.
- Oversaw installation, testing, and commissioning of electrical and HVAC equipment.
- Trained technical teams and ensured adherence to SOPs and safety standard.
- 110 TR (Trane – Water Cooled), 104 TR (Bluster – Air Cooled)

#### **PVR Cinemas Ltd. Maintenance Technician December 2011 – July 2014**

- Operation and maintenance of HVAC systems and chiller plants.
- Preventive maintenance & troubleshooting of AHUs, pumps, motors, electrical panels (MCB, ELCB, MCCB), and complete electrical wiring.
- Fire Alarm System maintenance including detectors, MCPs, sprinklers, and emergency systems.

#### **ABB Ltd., Maneja Electrical Maintenance Technician – Jan 2008 to December 2010**

- Worked on 245 kV & 400 kV drive circuit breakers.
- Involved in testing, wiring, assembling, and final pole work of drive sections.
- Supported manufacturing, testing, and quality assurance activities.

## Qualification

---

- ❖ Diploma Electrical Eng. 2016, Dr. Baba Saheb Ambedker Technology Undercity (1<sup>st</sup> Class With Dist.)
- ❖ ITI (Wireman – Electrical) NCVT ITI Gorwa, Vadodara 2008, 65%
- ❖ SSC, GSEB, Sevasi High School, Vadodara, 2002, 47%

## Language Proficiency:

---

- ❖ Speak- Hindi, English, and Gujarati.
- ❖ Read and Write – English, Hindi, and Gujarati.

## Computer Skills:

---

- ❖ Good knowledge in basic Computer skill & internet handling.
- ❖ Good Knowledge on MS office, Emails

## Personal Details:

---

- Date of Birth : 14/07/1986
- Father's Name : Ramanbhai Makwana
- Nationality : Indian.
- Marital Status : Married.
- Current CTC : 32000/-
- Expected Salary : 40000/-

Place: Gotri, Vadodara
