

Personal Information

Name: BHANU PRAKASH VERMA

Gender: MALE

Date of Birth: 15/07/1997

Contact No: +91 8875375496

Email: bhanu1769@gmail.com

Address: PLOT NO A - 170 DEV VIHAR,
BEHIND 52FEET HANUMAN
TEMPLE
AGRA ROAD, JAMDOLI, JAIPUR,
RAJASTHAN, 302031
INDIA.

Total Experience: 5-year 6 month in
Echocardiography and other
noninvasive tests

Area of Specialty

- Echocardiography
- manage the cardiology department
- Electrocardiogram
- Stress echocardiogram
- Holter Monitoring and analyzing
- Treadmill Test

Overview s Objective

Skilled and dedicated Registered Cardiac Sonographer with over 5 year pulas of experience, proficient in performing high-quality transthoracic and stress echocardiograms. Adept at analyzing complex cardiac conditions and collaborating with cardiologists for accurate diagnoses. Patient-focused, detail-oriented, and highly tech-savvy, with expertise in optimizing imaging protocols and utilizing advanced ultrasound equipment. Strong communication and teamwork skills, committed to continuous professional development. Passionate about enhancing patient care and improving healthcare outcomes. Eager to contribute expertise to an interdisciplinary healthcare team, ensuring excellence in cardiac diagnostics and patient management.

Education s Professional Registrations

- **BSC - Bachelor's degree in science (zoology botany & chemistry)**
 - Jaipur national university. A+ NAAC Accredited and UGC approved, Jaipur rajasthan
- **Diploma - 2 years full time diploma in cardiology technologist**
- **XII - Saint rose senior secondary High school, Board of Rajasthan(khania check post, goner road, jaipur)**
- **X - Sarvodaya bal niketan senior secondary school. Lawan(dausa)**
- **Professional registration - RAJASTHAN PARA-MEDICAL COUNCIL(RPMC)**

[Reg no-131]

Work Experience

1. Cardiac Technologist February 2020 - April 2022

- **Hospital:** JNU Hospital & Medical College, Jaipur
- **Employment Type:** Full-Time
- **Supervisors:**
Dr. Ruchi Gupta (Cardiologist, HOD)
Dr. Navjeet Singh Ahluwalia (Cardiologist, HOD)
Dr. Supriy Jain (Cardiologist)
- **Responsibilities:**
 - Performed routine Adult and Pediatric TTE Echocardiography.
 - Performed and interpreted noninvasive tests including 12 lead ECG, Treadmill test, Holter monitoring test.
 - Maintained and calibrated ultrasound equipment.

2. Echocardiographer 03/04/2022- 14/05/2023

- **Hospital:** Jaipur Hospital
- **Employment Type:** Full-Time
- **Supervisors:**
Dr. G.L. Sharma (Cardiologist)
Dr. Abhimanyu Uppal (Cardiologist)
Dr. Ashok Garg (MD Medicine)
- **Responsibilities:**
 - Performed routine Adult and Pediatric TTE Echocardiography.
 - Performed and interpreted noninvasive tests including 12 lead ECG, Treadmill test, Holter monitoring test.
 - Maintained and calibrated ultrasound equipment.

3. Cardiology In-Charge 15/05/2023 - present

- **Hospital:** Rungta Hospital
- **Supervisors:**
Dr. Mukesh Yadav (Cardiologist)

Dr. Kushmendra Parashar (Cardiologist)

Dr. Mukesh Verma (Cardiologist)
- Dr. Sirajuddin (PGDCC)
- **Responsibilities:**
 - As the cardiac manager, my responsibility is to manage the cardiology department (cath lab & ipd - opd) and ensure that patients receive comfortable and seamless care.
 - Performed 2D transthoracic echocardiograms, observed Transesophageal echocardiography for adult patients.
 - Performed routine Adult and Pediatric TTE Echocardiography.
 - Performed and interpreted noninvasive tests including 12 lead ECG, Treadmill test, Holter monitoring test.
 - Maintained and calibrated ultrasound equipment.
 - Prepared patient and equipment according to physician's orders.
 - Reviewed Patient medical history, clinical findings and indications for testing.
 - Performed Emergency bedside echoes.
 - Performed Contrast echocardiography
 - Performed Stress echocardiography (Dobutamine Stress Test)
 - Assisted in Echo guided interventional procedures.

Duties s Responsibilities

- Acquisition of quality images, optimization of images obtained.
- Performing detailed analysis of images, appropriate to the clinical questions and investigations findings.
- Formulate differential diagnosis during the course of examination on the basis of both clinical history and investigation findings.
- Independently obtain accurate clinical and symptomatic history from patients.
- Independently produce accurate comprehensive reports.
- Independently operate and set up medical equipment as indicated for each procedure.
- Monitors Complex Technical and physiological data, independently takes decision to continue or terminate the tests.
- Supervise in Provocative Cardiac Procedures previously performed with medical supervision.
- Independently recognize patients' hemodynamic data.
- Maintain clinical record of the patient's study conducted.
- Analyze data, perform required calculations, determine interpretation and compiles written technical reports for case notes.
- Actively participate in multi-disciplinary clinical review meetings.
- Participate in research projects.
- Progressively commence individual practice of highly complex diagnostics, complex reports that can be reviewed by Advanced Cardiac Physiologists.

Types of Cases Handled

- Evaluation of Congenital heart diseases including
 - Cardiac malposition
 - ASD, VSD, PDA
 - Ebstein's Anomaly
 - AV canal Defect
 - Cor triatriatum
 - TOF
 - Supravalvular mitral ring
 - TGA Etc.
- Echocardiographic assessment of Myocardial, Pericardial, Aortic and ischemic heart disease including
 - Assessment of LV systolic and diastolic function by echocardiography
 - RV function assessment
 - Acute coronary syndrome
 - Complications of Myocardial Infarction
 - Cardiomyopathies
 - Cardiac Tumors and Masses
 - Pericardial diseases
 - Aortic diseases
- Echocardiographic assessment of Valvular heart diseases including
 - Mitral stenosis and regurgitation
 - Aortic stenosis and regurgitation
 - Tricuspid stenosis and regurgitation
 - Pulmonary stenosis and regurgitation
 - Infective Endocarditis
- Evaluation of Prosthetic Valves

Equipment Handled

ECHOCARDIOGRAPHY MACHINES HANDLED: Proficient in operating and troubleshooting various Echocardiography machines including GE VIVID 7, GE VIVID T8, PHILIPS AFFINITI 50C.

Key Skills

- Echocardiography
- Doppler Sonography
- Ultrasound Procedures
- Cardiac Anatomy
- Cardiac Physiology
- Patient Care
- Computer Literacy
- Communication

- Good interpersonal skills
- Data collection
- Cardiopulmonary resuscitation
- Ability to keep accurate documentation
- Competent in Microsoft word and PowerPoint presentation
- Acquiring and imparting complex knowledge in challenging environments
