PROFESSIONAL SUMMARY

Doctor of Pharmacy intern with structured clinical training at a tertiary care teaching hospital, experienced in ward rounds, prescription auditing, medication safety, ADR monitoring, and patient counselling across Surgery, General Medicine, Pediatrics, and Obstetrics & Gynecology. Research-active with published review articles and case reports, and ongoing projects in pharmacovigilance (FAERS/OpenVigil), clinical research, and scientific writing. Interests include Clinical Pharmacology, PK/PD, pharmacoepidemiology, and medication safety.

CLINICAL PRACTICE TRAINING

Sir Sayajirao General Hospital (SSGH), Vadodara, Gujarat, India

Clinical Pharmacist Intern

June 2025 – Present

Progressed from a 6-month clerkship into a full-time clinical internship, executing comprehensive prescription auditing, medication safety monitoring, and therapeutic interventions during multidisciplinary ward rounds.

Obstetrics & Gynecology (February 2026 – Present)

- Evaluate trimester-specific drug safety and teratogenic risks, optimizing pharmacotherapy for gestational diabetes, hypertensive disorders, and maternal infections.
- Counsel patients extensively on medication adherence, critical prenatal supplementation (iron, calcium, folic acid), and lactation safety.

Pediatrics (December 2025 – January 2026)

- Executed precise weight-based and body surface area dose verifications, assessing IV medication compatibility for vulnerable pediatric and neonatal populations.
- Monitored for dose-related toxicities and documented complex drug-related problems, including dosing errors and off-label drug use considerations.

General Medicine (August 2025 – November 2025)

- Managed complex polypharmacy in multi-morbid patients by performing medication reconciliation and comprehensive therapeutic appropriateness evaluations.
- Identified, documented, and intervened on critical drug-related problems (DRPs), adverse drug reactions (ADRs), and severe drug-drug interactions.

General Surgery (June 2025 – July 2025)

- Assessed pre-operative and post-operative antibiotic selection to ensure strict adherence to hospital protocols and national antimicrobial guidelines.
- Conducted therapeutic monitoring for post-operative pain management and infection control, providing targeted drug information services.

CLERKSHIP TRAINING

Sir Sayajirao General Hospital (SSGH), Vadodara

6-month clerkship during 5th year

- Executed medication chart review, prescription auditing, and clinical case discussions
- Participated in patient counselling and ADR monitoring under supervision
- Prepared clinical case presentations and documentation
