WORK EXPERIENCE

Pyrovio Consulting, New York, USA

Mar 2025 – Present

Associate Consultant, Market Access, Lifesciences

- Supported a global biotech client in developing a go-to-market strategy for a late-stage oncology asset, conducting competitive intelligence, indication prioritization, market landscape assessments, and commercial strategy analyses across U.S. and EU5 markets.
- Led payer and market access research to evaluate reimbursement trends, formulary dynamics, Medicare and commercial payer considerations, and barriers to adoption; synthesized findings into value messaging, evidence planning, and strategic recommendations.
- Collaborated with commercial, medical affairs, market access, and cross-functional stakeholders to define business requirements, evaluate strategic alternatives, support client workstreams, and develop executive-ready deliverables for senior leadership.
- Supported proposal development, business development activities, strategic workshops, and internal knowledge-sharing initiatives while managing multiple project priorities across consulting engagements.

Stamford Health, Stamford, USA

Sep 2024- Feb2025

Associate Consultant, Strategy Planning

- Utilized advanced analytical and data visualization tools like Sg2, Clarify, Tableau, Power BI, EPIC for complex claims data, EMR data of CT state to conduct in-depth market and service line analyses, identify growth opportunities in Primary and Secondary service area, inform growth and market share projections, gather insights and commercial excellence.
- Developed and implemented data-driven strategies planning and execution to optimize hospital performance, design urgent care and ambulatory network strategies, increase market share, build acquisitions, and enhance customer relationships.
- Created rollout of comprehensive annual and quarterly market share reports and business presentations to track progress, communicate key market insights, executive presentations and inform next 3-years Stamford Health's strategic plans.

AstraZeneca, New York

Jun 2023- Aug 2023

Competitive Intelligence Intern (Internship)

- Delivered competitive intelligence and market strategy for AAV gene therapy immunology product for the USA market analyzing market share and trends data for portfolio analysis, competitive benchmarking and tracking of key competitors.
- Established primary and secondary market research across diverse databases and gene therapy companies, unearthing key market insights and risk assessments on current competitors working with the company executives.
- Developed a product portfolio and strategy from real-world intelligence data by product forecasting performance management and data-driven recommendations for key business decisions.

Abbott HealthCare

Jan 2020-Jan 2021

Market Research Associate

- Conducted market qualitative and quantitative research for new drug, Rivaxa (Rivaroxaban) and target product profile of Rivaxa in comparison to widely used anticoagulants blood thinners, for effective product positioning and market entry of Rivaxa in the market.
- Collaborating with multi-functional teams, providing strategic insights, and ensuring alignment with market demands, for creating successful go-to market launch strategy for Rivaxa.
- Conducted data-driven market research (primary and secondary) to inform product decisions and strategic roadmap.
- Analyzing and executing payer landscapes and market access strategies of Rivaxa in Asian and USA markets.

Lokmanya Hospital for Special Surgery

Feb 2021- Jan 2022
