

Ajay YADAV

Cardiac Perfusionist

☎ 9022776716 ✉ smile11aly@gmail.com

CLINICAL EXPERIENCES

K.E.M HOSPITAL | 2022 – Present.

Completed comprehensive clinical training in a high-volume cardiothoracic operating theatre with exposure to adult and pediatric cardiac surgeries. Worked as part of the multidisciplinary cardiac surgery team under the supervision of senior perfusionists and cardiac surgeons.

Total Cardiac Cases Assisted: 480-520+
Breakdown:

- CABG (On-pump): 40-50 cases
- Valve Surgeries (MVR/AVR/DVR): 220-270+ cases
- Combined CABG + Valve: 35-45 cases
- Congenital Cases (ASD/VSD/TOF): 60-70 cases
- Emergency Surgeries: 10–15 cases
- Aortic Procedures (Bentall, Ascending Aortic Replacement, Aortic Root Surgery): 30-40 cases
- Re-exploration / Bleeding Cases: 20+ cases

EDUCATION

B.sc PERFUSION | 2022 - 2026

- Bachelor of Cardiac Perfusion Technology from Seth G.S. Medical College & KEM Hospital, Mumbai, affiliated with Maharashtra University of Health Sciences (MUHS), Nashik.

Additional Clinical Exposure

- Observed intra-aortic balloon pump (IABP) insertion and timing adjustments.
- Gained exposure to ECMO principles, circuit components and troubleshooting during departmental teaching sessions and clinical observation.

PROFILE

Cardiac Perfusionist with structured exposure to adult and pediatric cardiopulmonary bypass management in a moderate-to-high volume cardiac center. Assisted in 480-520+ cardiac surgeries with progressive involvement in CPB setup, intraoperative monitoring, and perfusion parameter adjustments under supervision. Strong foundation in oxygen delivery optimization, acid-base management, and perfusion crisis recognition.

EXPERTISE

- Cardiopulmonary Bypass (CPB)
- Adult Cardiac Perfusion
- Myocardial Protection
- Blood Gas Analysis (ABG)
- ACT Monitoring
- Ultrafiltration (CUF, ZBUF, MUF)
- ECMO Assistance
- IABP (Intra-Aortic Balloon Pump)
- Cell Saver
- Perfusion Circuit Assembly
- Emergency CPB Management
