(Hospital Group CEO | Medical Superintendent | Molecular Oncologist | Clinical Cancer Geneticist & Cytogeneticist | Certified Genetics Counsellor | Mumbai / Nagpur, Maharashtra, India)

Professional Summary

I am basically from Mumbai, India. Visionary Healthcare Executive with over 22 years of experience (10 yrs. experience of Fully Management of Multi Speciality , Cancer Super Specialty & Other Super Specialty Hospitals) in International and National Hospitals, Hospitals & Healthcare Management, Molecular Pathology & Genetics Pathology Laboratory. Adept at aligning hospital operations as per guideline of NABH, NABL, CAP and JCI Accreditation. Extensive experience overseeing all facets of hospital operations, including medical & non-medical management & administration, strategic leadership, and regulatory compliance. Proven track record in optimizing clinical quality, strengthening medical staff relations, and driving operational excellence.

Skilled in strategic planning, partnership development, financial performance management P&L Management, and community engagement. Recognized for delivering high-quality patient care, pioneering innovations in diagnostics, and mentoring multidisciplinary medical teams to achieve institutional goals.

I am also attaching one International Medical Tourism Company as a Member of Medical Advisory Board for International Patient's Treatment in India.

Managing Multi Speciality , Cancer Super Specialty & Other Super Specialty Hospitals; managing all Medical & Non-Medical management and administration activities; General Medicine, General Surgery, Laparoscopic and Endoscopic Surgery, Vascular Surgery, Trauma and Critical Care, Advanced all type of ICU, Gynecology, Pediatric, Plastic and Cosmetic Surgery, Onco - Surgery, Chemotherapy, Nephrology, Uro - Surgery, Advanced Dialysis Unit, Cardiology(Cath Lab.), Orthopedic, Advance Orthopedic (Joint and Hip Replacement Surgery), Pain Management, Chest and Respiratory Medicine, Infectious Diseases, Gastroenterology, Neurology and Neuro Surgery, Ophthalmology, Dental and Cosmetic Surgery, ENT, Audiometric Test, Advanced Pathology Laboratory, Ultra Sonography (USG), Color Doppler, MRI, CT Scan, Digital X - Ray, ECHO, ECG, EEG, TMT, Audiometry Test, Mammography, Cancer Chemotherapy, Radiation Therapy, PET Scan, ICU, MICU, PICU (All type of ICUs), Modular Operation Theaters etc.

Executive Experience:**RST Cancer Hospital (A Tertiary Cancer Care Hospital, 100 Beds with NABH & NABL Accreditation), Nagpur, Maharashtra, India**

General Manager / Chief Operating Officer (COO)

January 2024 – Present

- Held full accountability for the delivery of high-quality healthcare services, ensuring excellence in clinical outcomes across outpatient, inpatient, surgical, and emergency care.
- Managing Surgical Oncology, Medical Oncology (All Chemotherapy), Radiation Oncology (Linear Accelerator, IMRT, IGRT, VMAT, SBRT, Bhabhatron - II, H. R. D. Brachytherapy, Cobalt, and Simulator), Radiology (MRI, CT Scan, Mammography, And PET Scan, Digital X-Rays), Pharmacy, Full Pathology Laboratory, Cancer Genetics Counselling, And Palliative Care.
- In RST Cancer Hospital I am managing all hospital activities (Medical and Non-Medical) per day basis; around 300 + Patients OPD, 150 + Patients Radiation Therapy, 75 + Patients Chemotherapy, 15 + Patients PET Scan, around 10 + OT per day.
- Total Revenue Cycle Management (P & L) by me in my present Hospital; Total Receipt Monthly Approx. INR Rs. ₹ 1,80,00,000.00 Total Expenditure INR Rs. ₹ 50,00,000.00 EBIDTA INR Rs. ₹1,30,00,000.00 About 72%..
- Developed and monitored KPIs across departments to ensure financial health, operational efficiency, and clinical excellence
- Negotiated vendor contracts and insurance agreements to optimize cost structures and improve patient access
- Implemented lean management practices to reduce waste, streamline workflows, and improve turnaround times in clinical and administrative processes.
- Provided strategic oversight and supervision of clinical activities, ward rounds, and diagnostic practices; promoted a culture of continuous learning and evidence-based medicine.
- Led multidisciplinary teams in conducting clinical needs assessments, studies, and surveys in alignment with national and international ethical standards.
- Directed referral protocols for complex cases beyond facility capacity, ensuring timely and professional escalation to higher-level care.
- Developed and enforced quality assurance strategies, monitored service delivery standards, and led investigations into clinical incidents and patient complaints.

- Chaired bi-monthly Hospital Management Team (HMT) meetings; collaborated with department heads to formulate, implement, and audit SOPs and treatment protocols in compliance with global standards.
- Held final authority on pharmaceutical quantification and procurement in collaboration with the pharmacy department, ensuring budget compliance and supply chain integrity.
- Represented the hospital in communications with district, state, and national health authorities, as well as international donors; ensured timely and transparent execution of donor contracts and MOUs.
- Directed strategic planning and P&L management; aligned operational plans with annual budgets and goals.
- Fostered a positive work environment through effective human resource planning and staff engagement within approved budgets.
- Supervised senior management team operations, ensuring responsiveness to patient and staff needs and promoting departmental efficiency and professionalism.
- Spearheaded capacity-building initiatives with senior medical officers, including mentoring, coaching, in-service training, and continuing medical education (CME).
- Advocated for public health initiatives & CSR programs focused on preventive care, rural outreach, and health literacy.

Spinetics Hospitals and Research Centre (75 Beds A Multi-Speciality Hospital with NABH & NABL Accreditation), Vadodara, Gujarat, India

Hospital Chief Executive Officer (CEO)

June 2023 - January 2024

- Overall responsibility for delivery of quality health care. Ensuring clinical practices that guarantee high-quality clinical outcomes, providing supervision and advice on clinical activities, including both outpatient and inpatient services, ward rounds, and surgical interventions, promoting a culture of learning and keeping up to date on diagnostic and treatment practices, managing all Medical & Non-Medical management and administration activities.
- Ensures teams to conduct needs assessments and clinical studies and surveys as appropriate and with adherence to national and international clinical ethics.
- Ensures that clinical cases that require treatment beyond the hospital's capacity are referred to a higher service in a timely and professional fashion. Develops and implements strategies to ensure that staffs comply with quality assurance guidelines; monitors service quality and for investigating incidents and complaints in the hospital.
- Provides leadership in the formulation, implementation, and review of and compliance with all internal standard operating procedures (SOPs) and treatment protocols.
- Ensures adherence at all levels in the facility and international standards; oversees adherence to appropriate medical waste management and infection control practices and protocols.
- Together with the pharmacy head of department, holds the final authority for quantifying pharmaceutical needs and ordering all medical drugs and consumables within the approved budget and procedures.
- Serves as the primary liaison between the hospital and district, departmental and national health authorities, as well as local and international donor organizations.
- Oversees strategic communication and relationship management to ensure alignment with public health priorities and donor expectations.
- Ensures timely execution and high-quality delivery of donor contracts and Memorandums of Understanding (MOUs), maintaining full compliance, transparency, and professional documentation standards.
- P & L Management and Provides Strategic Leadership to the Hospital: Ensures a current and living strategic plan and budget for the financial year and ensures that operational plans align to these documents. Manages resource requirements (e.g., expenditure, human resource planning) necessary to deliver against the objectives.
- Ensures favorable staff working environment within approved budget and needs. Supervises senior hospital management team activities, ensuring that patients and staff concerns and needs are attended to and that departments are managed proactively with a view to improving efficiency and maintaining professional etiquette.
- Together with the senior resident medical officers, organizes and facilitates capacity - building sessions through mentoring, coaching, in - service trainings, and continuing medical education (CME).

Vitals Multi-Speciality Hospitals (100 Beds with NABH & NABL Accreditation), Vadodara, Gujarat, India

Hospital Group CEO

November 2022 - May 2023

- Delivered strategic leadership to a leading multi-specialty hospital and research center, driving clinical excellence while advancing organizational growth and innovation, managing all Medical & Non-Medical management and administration activities.
- Led comprehensive strategic planning, service diversification, and institutional development initiatives to establish hospital as a

regional center of excellence in spine care and translational medical research.

- Managing the strategic and the day-to-day operations of the entire hospital, clinical and managerial, ensuring that all departments are fully and comprehensive staffed to the extent possible and liaising with and supervising all clinical departments and medical and nonmedical staff to ensure delivery of medical services of high quality within the faith-based environment.
- Develop a relationship with outside organizations, including the medical community, referring physicians, and the media & deliver strong financial performance Control P & L Management.
- Ensuring that the facility supports the hospital clinical work with sound financial investments, adequate staffing patterns, and strict adherence to hospital policies and procedures.
- Built strategic alliances with academic institutions, research bodies, and technology providers to foster innovation and clinical research.
- Represented the hospital in healthcare summits, policy forums, and investor meetings to shape industry dialogue and attract funding.
- Advocated for public health initiatives & CSR programs focused on preventive care, rural outreach, and health literacy.

Spinetics Hospitals and Research Centre (75 Beds A Multi-Speciality Hospital with NABH & NABL Accreditation), Vadodara, Gujarat, India

Hospital Chief Executive Officer (CEO)

August 2020 – October 2022

- Spearheaded partnerships with academic institutions, biotech firms, and government agencies to drive collaborative research and clinical innovation, managing all Medical & Non-Medical management and administration activities.
- Led hospital-wide initiatives in quality assurance, clinical governance, and patient safety, ensuring compliance with NABH/NABL and international healthcare standards.
- Managed talent acquisition, leadership development, and workforce planning to build high-performing medical and administrative teams.
- Championed digital transformation and adoption of health technologies including EMR systems, telemedicine platforms, and AI-assisted diagnostics.
- Strengthened community engagement and public health outreach programs to enhance regional healthcare access and awareness.
- Represented the hospital in strategic forums, regulatory reviews, and stakeholder negotiations, reinforcing institutional credibility and influence.
- Fostered a culture of excellence, accountability, and continuous improvement across all departments, driving measurable outcomes in patient satisfaction and clinical performance.
- Develop and implement strategic plans and budgets aligned with hospital objectives.
- Lead senior hospital management teams, ensuring patient and staff needs are met with professionalism and efficiency.
- Facilitate capacity-building through mentoring, coaching, in-service training, and CME programs.
- Ensure favorable staff environments and resource optimization within approved budgets.
- Deliver strong financial performance through effective P&L management and operational planning.

H J Hospitals, A Multi - Specialty Hospitals (A International Hospitals 150 Beds with ISO Accreditation), SARL, Africa

Director and Administrator

April 2019 - July 2020

- Managed multidisciplinary teams and coordinated medical services including internal medicine, surgery, diagnostics, emergency care, and specialty clinics, managing all Medical & Non-Medical management and administration activities.
- Directed hospital-wide initiatives in clinical governance, infrastructure development, and service delivery across specialties including internal medicine, surgery, diagnostics, and emergency care.
- Oversaw financial planning and P&L management, ensuring sustainable growth and optimal resource utilization.
- Implemented hospital-wide policies and clinical protocols to meet accreditation standards and improve patient safety outcomes.
- Led recruitment, training, and performance management of medical and non-medical staff, fostering a culture of professionalism and continuous improvement.
- Strengthened institutional partnerships with regional health authorities, NGOs, and international donors to support community health programs and infrastructure development.
- Supervised procurement, inventory control, and biomedical equipment management within approved budgets.
- Represented the hospital in strategic forums, regulatory reviews, and stakeholder negotiations, enhancing its reputation as a center of excellence in the region
- Championed digital transformation and operational innovation to improve clinical workflows, patient experience, and data-driven decision-making

- Promoted public health awareness and patient education initiatives tailored to local healthcare needs.

Metro Group Hospital and Research Institute (300 Beds Multi – Speciality Group Hospitals with NABH & NABL Accreditation), Vadodara, Gujarat, India

Unit Head (CEO) and Medical Superintendent (MS)

January 2018 - March 2019

- Directed hospital-wide initiatives in patient care quality, clinical governance, and operational efficiency across departments including cardiology, oncology, orthopedics, emergency medicine, and diagnostics.
- Managed end-to-end hospital operations including medical services, infrastructure, finance (P&L management), human resources, and regulatory compliance.
- Led multidisciplinary teams in implementing evidence-based clinical protocols, infection control measures, and NABH/NABL/ISO accreditation standards.
- Spearheaded strategic planning and institutional growth, including expansion of specialty services, technology upgrades, and partnership development.
- Ensured optimal utilization of resources and budget adherence while maintaining high standards of patient safety and satisfaction.
- Supervised medical staff recruitment, credentialing, and performance evaluation; fostered a culture of accountability, continuous learning, and professional excellence.
- Manage all Medical and Non-Medical activities; General Medicine, General Surgery, Laparoscopic and Endoscopic Surgery, Vascular Surgery, Trauma and Critical Care, Advanced all type of ICU, Gynecology, Pediatric, Plastic and Cosmetic Surgery, Onco - Surgery, Chemotherapy, Nephrology, Uro - Surgery, Advanced Dialysis Unit, Cardiology(Cath Lab.), Orthopedic, Advance Orthopedic (Joint and Hip Replacement Surgery), Pain Management, Chest and Respiratory Medicine, Infectious Diseases, Gastroenterology, Neurology and Neuro Surgery, Ophthalmology, Dental and Cosmetic Surgery, ENT, Audiometric Test, Advanced Pathology Laboratory, Ultra Sonography (USG), Color Doppler, MRI, CT Scan, Digital X - Ray, ECHO, ECG, EEG, TMT, Audiometry Test, Mammography, Cancer Chemotherapy, Radiation Therapy, PET Scan, ICU, MICU, PICU (All type of ICUs), Modular Operation Theaters etc.

Umbi Cell Pvt Ltd, Stem Cell & Regenerative Medicine Laboratory, Mumbai, India

Director and Administrator

January 2016 - December 2017

- Directed the development and implementation of protocols for stem cell isolation, culture, characterization, and therapeutic application in areas such as orthopedics, neurology, and oncology.
- Ensured adherence to national and international standards for Good Laboratory Practice (GLP), biosafety, and ethical research conduct.
- Led quality assurance initiatives, internal audits, and SOP development to maintain accreditation and ensure consistent performance across clinical and research operations.
- Managed procurement and inventory of biomedical reagents, consumables, and equipment within approved budgets.
- Built and mentored multidisciplinary teams of scientists, clinicians, and technicians, fostering a culture of innovation, collaboration, and scientific excellence.
- Represented the organization in regulatory reviews, investor meetings, and scientific forums, enhancing institutional visibility and credibility.
- Implemented evidence-based clinical procedures and hospital policies to ensure consistent, high-quality care delivery.
- Actively contributed to institutional growth through strategic planning, stakeholder collaboration, and continuous improvement initiatives.

Asian Cancer Research Institute & Apex Hospitals, A Multispecialty & Cancer Super Speciality Group Hospitals (300 Beds with NABH & NABL Accreditation), Jaipur, Rajasthan, India

Director and Administrator

December 2014 - December 2015

- Provided strategic leadership across all clinical and non-clinical departments, including surgery, anesthesia, internal medicine, family practice, security, and billing compliance. managing all Medical & Non-Medical management and administration activities.
- Served as Ethics & Compliance Officer, mitigating institutional risk through the development and enforcement of policies, procedures, and regulatory frameworks.
- Spearheaded corrective action plans and staff training programs to address operational challenges and uphold quality standards.
- Directed all medical and administrative functions of a multi super-specialty hospital, ensuring seamless integration of services

and optimal patient outcomes.

- Oversaw P&L management, resource allocation, and financial planning to align with institutional goals and sustainability targets.
- Fostered a high-performance culture rooted in excellence and accountability, driving measurable improvements in patient satisfaction and staff engagement across the organization.
- Established and monitored standards for operational efficiency, clinical protocols, and quality assurance across departments.
- Led recruitment, retention, and development of qualified medical and administrative personnel.

Grant Govt. Medical College and Sir J.J. Group of Hospitals, (1000 Beds) Mumbai, India

Consultant And Research Associate

March 2009 - November 2014

- Provided expert consultation in clinical biochemistry and molecular diagnostics, supporting both inpatient and outpatient services across multidisciplinary departments.
- Led and contributed to advanced research projects in molecular oncology, cytogenetics, and predictive cancer diagnostics, including Immunohistochemical (IHC) evaluation of hormonal receptors in breast cancer.
- Collaborated with faculty and research teams to design and execute clinical studies, ensuring adherence to national and institutional research ethics.
- Delivered training and mentorship to junior medical staff and postgraduate students in laboratory techniques, diagnostic interpretation, and research methodology.
- Participated in academic publications and presented findings at national and international medical conferences.
- Supported diagnostic innovation through development and validation of PCR-based assays, cytopathology techniques, and histopathological protocols.
- Actively involved in hospital quality initiatives and SOP development for diagnostic laboratories.

Reliance Life Sciences Centre, A Molecular Pathology & Medical Genetics Laboratory (College of American Pathologist {CAP} Accreditation) New Mumbai, India

Research Fellow

October 2006 - February 2009

- Conducted translational research in molecular biology, genetics, and regenerative medicine, contributing to cutting-edge innovations in biotechnology and healthcare. Karyotyping, Molecular Genetics / Cytogenetic Pathology, Fluorescence In-Situ Hybridization (FISH), Predictive Cancer Diagnostics, Pharmacogenomics, Molecular Diagnostics Tests, Viruses Test, And Hematological Disorders: BCR-ABL PCR Test for Chronic Myeloid Leukemia, Beta-Thalassemia (5 Common Indian Mutations), Factor V Leiden Mutation PCR-RFLP, Natural Killer Cell Test for Infertility. BCR-ABL PCR Test for Chronic Myeloid Leukemia, BCR - ABL RT / PCR (Qualitative), BCR – ABL Real Time PCR (Quantitative).
- Designed and executed experimental laboratory tests protocols for stem cell therapy, molecular pathology, cancer biology, and medical genetic diagnostics, including PCR-based assays and sequencing technologies.
- Collaborated with interdisciplinary teams to develop novel therapeutic strategies and diagnostic platforms aligned with global clinical standards.
- Analyzed complex biological data and authored technical reports to support product development and regulatory submissions.
- Participated in institutional knowledge exchange through scientific presentations, internal reviews, and collaborative research initiatives.

Jaslok Hospital and Research Centre, A Multispecialty with Cancer Super Speciality Hospitals (300 Beds with NABH & NABL Accreditation), Mumbai, India

Sr. Technologist

August 1999 - September 2006

- Conducted advanced Histopathology, Cytopathology, Immunohistochemistry (IHC), Immunocytochemistry (ICC), Enzyme Histochemistry, Transmission Electron Microscopy (TEM), Molecular Pathology.
- Collaborated with multidisciplinary teams to explore applications of laser technology in regenerative medicine, oncology, and cellular biology.
- Partnered with cross-disciplinary research teams to investigate and advance laser-based applications in regenerative medicine, cancer therapeutics, and cellular biology.
- Prepared comprehensive technical documentation and delivered research presentations to senior scientific panels, ensuring full adherence to institutional ethics and regulatory standards.

Centre For Advanced Technology (CAT) Indore M.P. India	
Research Fellow	June 1997 - March 1999
• Conducted advanced experimental research on laser-tissue interactions, focusing on therapeutic applications of low-energy laser irradiation in biomedical contexts. • Designed and executed histopathological, hematological, and biochemical responses to laser exposure. • Contributed to the development of laser-based diagnostic and therapeutic protocols, supporting translational research in regenerative medicine, oncology, and cellular biology. • Played a key role in contributing to translational research projects aligned with the Department of Atomic Energy's scientific innovation goals • Collaborated with interdisciplinary teams to explore innovations in bio photonics, enhancing the understanding of light-based therapies and their clinical potential. • Authored detailed technical reports and presented findings to scientific committees, ensuring compliance with institutional research ethics and national standards.	
Certifications And Accreditations:	
• NABH Internal Assessor & NABH Internal Counsellors for Hospitals Accreditation; (National Accreditation Board for Hospitals and HealthCare Providers), Registration under Quality Council of India (QCI), Government of India, Certificate Number: H-3D-2016-43-7131, NABH (National Accreditation Board for Hospitals and HealthCare Providers), India, Training Program on Implementation of NABH Hospital Standards / SHCO Standards. • NABL Assessor Training for Medical Pathology Laboratories Accreditation; Training Program on Laboratory Assessor Training Course Based on ISO/IEC 15189:2012 and NABL Requirements; (National Accreditation Board for Testing and Calibration Laboratories). • NABL Internal Auditor for Clinical Laboratory Accreditation; Training Program on Laboratory Quality Management System (QMS) & Internal Audit for Clinical Laboratory as Per ISO – 15189:2012 and NABL (National Accreditation Board for Testing and Calibration Laboratories, India) From; Indian Institute of Quality Management, IIQM, • Quality Council of India (QCI) Registered under QCI, Government of India. (Certificate Number: H-3D-2016-43-7131)	

Medical Articles with PubMed Indexing International Publication:
• Rajeev Singhai, VW Patil, AV Patil. (2011). Immunohistochemical (IHC) HER-2/neu and Fluorescent- In-Situ Hybridization (FISH) Gene Amplification of Breast Cancer in Indian Women, Asian Pacific J Cancer Prev, 12, (179-183). PMID: 21517254 • Rajeev Singhai, Vinayak W Patil, Sanjog R Jaiswal, Shital D Patil, Mukund B Tayade, Amit V Patil. (2011). E-Cadherin as a diagnostic biomarker in breast cancer, North Am J Med Sci, 3 (5), 222-226, DOI: 10.4297/najms.2011.3222, ISSN: 1947 – 2714. PMID: 22558599, PMCID: PMC3337742 • Amit V. Online ISSN: 2231-6728

Medical Conference Participation & Speaking Engagements:
• Cytopathology Techniques in Tata Memorial Cancer Hospital (TMH), Workshop – Oct 2002 • Molecular Pathology Association of India (MPAI) Annual Conference on Molecular Diagnostics – Feb 2014 • Indian Hospital Association Seminar on “Should we go for NABH Accreditation?” – Aug 2018 • International World Medical Congress of Molecular Medicine – 2013

Honor and Award:
• Doctorate (Ph.D.) Thesis Title: “Immunohistochemical (IHC) Evaluation of Predictive Hormonal Receptors of Breast Cancer in Indian Women” By Pranam Mukherjee. Honorable President of India.

- Editor – In – Chief, International Journal of Current Biochemistry Research October 2013 – till date.
- Authorized Signatory Eligibility (NABL 112 Compliant) Recognized under NABL 112 guidelines (Table 2, Annexure II(a)) for the following disciplines: • Clinical Biochemistry • Clinical Pathology • Nuclear Medicine (In-Vitro Tests) • Flow Cytometry • Molecular Biology (Genetics) Eligibility granted based on Doctorate (Ph.D.) in Biochemistry

Medical Projects:

- Immunohistochemical (IHC) Evaluation of Predictive Hormonal Receptors of Breast Cancer in Indian Women Department of Biochemistry, Cell & Molecular Biology, Grant Govt. Medical College & Sir J.J. Group of Hospitals, Mumbai, India.
- Histopathological, Hematological & Biochemical Studies on Indian Albino Mice Following Low Energy Laser Irradiation on Skin Under National Laser Program (NLP), Department of Atomic Energy (DAE), Laser Biomedical Laboratory, Centre for Advanced Technology (CAT), Indore – Branch of Bhabha Atomic Research Centre (BARC), Mumbai, India.
