EXPERIENCE

Internship, GMERS Medical College, Gotri

05/2024 – 05/2025

Vadodara, Gujarat

- Completed clinical rotations in Internal Medicine, General Surgery, Pediatrics, Obstetrics & Gynecology, Orthopedics, Emergency Medicine, and Community Health, gaining comprehensive exposure to diverse patient populations and conditions.
- Provided both outpatient (OPD) and inpatient (IPD) care, maintained accurate medical records, and adhered strictly to hospital protocols and clinical guidelines.
- Proficient in performing basic medical procedures such as establishing IV access, inserting Foley's catheter, placing Ryle's tube, and routine wound care.
- Managed acute trauma and road traffic injury (RTI) cases in the emergency department, including performing sutures, wound debridement, and patient stabilization.
- Participated in ward rounds, patient counseling, and treatment planning under supervision of senior consultants.
- Assisted in minor surgical procedures and deliveries, gaining hands-on experience in labor rooms and operation theaters.

Internship, David Tvildiani Medical University, Georgia

02/2023 – 02/2024

Tbilisi, Georgia

- Successfully completed clinical internship rotations as part of the MBBS curriculum across key departments: Internal Medicine, General Surgery, Pediatrics, Obstetrics & Gynecology, Orthopedics, Emergency Medicine, and Family Medicine.
- Managed cases in the Emergency Department, including trauma care, wound management, and patient stabilization under supervision.
- Participated in daily ward rounds, patient monitoring, history taking, and formulation of differential diagnoses and treatment plans.
- Gained exposure to evidence-based medicine practices in a multicultural clinical setting, enhancing communication and diagnostic skills.
- Attended academic lectures, seminars, and clinical skills workshops as part of ongoing medical education.

Observership, Tristar Multispecialty Hospital

2023 – 2023

Surat, Gujarat

- Observed outpatient and inpatient practices in Internal Medicine department.
- Shadowed consultants in clinical decision-making, ultrasound interpretation, and patient follow-ups.
- Interpreted basic ECGs, blood investigations, and radiology reports under supervision.
- Strengthened skills in clinical reasoning, patient counseling, and professional communication.

SKILLS

- Proficient in history taking and conducting comprehensive physical examinations
 - Experienced in performing clinical procedures: IV line insertion, Foley's catheterization, Ryle's tube placement, wound suturing, and dressing
 - Handled OPD patient flow, appointment scheduling, and clinical documentation
 - Collaborated effectively in multidisciplinary hospital teams and clinical settings
- Skilled in interpreting ECGs, laboratory investigations, and radiology reports
 - Managed both outpatient (OPD) and inpatient cases across departments including Medicine, OBGYN, Pediatrics, and Surgery
 - Strong patient communication and counseling skills developed through daily interaction with diverse patient populations
 - Confident in presenting clinical cases and engaging in academic discussions and ward teaching sessions
