👤 Krishna Shah

EDUCATION

- **Bachelor's in biomedical engineering**

L.D. college of engineering

2022 - pursuing

Percentage: 81.8

- **Diploma in biomedical engineering**

Government Polytechnic, Ahmedabad

2019 - 2022

Percentage: 93.3

EXPERIENCE

- **Civil hospital, Asarwa, Ahmedabad**

Intern as biomedical engineer

JUN, 2024 - JUL, 2024

Observed maintenance and troubleshooting procedures with clinical staff. participate in discussions about equipment functionality and usage protocols.

- **Central University of Gujarat**

Research Intern – Biomaterials

JAN, 2025 - Present

Researching biomaterials for healthcare applications, focusing on material properties, characterization and innovation in medical devices

HOBBIES

- Content writing
- Anchoring, Singing
- Travelling, Painting

AREA OF INTEREST

- Medical device design and development
- Wearable healthcare technology
- Manufacturing Process for medical device
- Product lifestyle management
- IoT Application in healthcare
- Biomedical Research and Development

ABOUT

Motivated biomedical engineering student with a strong academic background in medical technology. Driven by a passion for innovation in healthcare and committed to contributing to the evolution of medical devices. Looking for an entry-level opportunity to learn, grow, and apply my skills in a dynamic professional environment

PROJECT

- **COVID safety kit**

Designed a COVID safety kit using Arduino UNO with ultrasonic sensor to promote social distancing and track oxygen saturation and heart rate using MAX30102 sensor.

- **CPR feedback device**

Created a smart CPR feedback device using Arduino Mega, FSR sensor to guide trainees with real time feedback on chest compression quality through compression cycle monitoring And LED indication for accuracy.

- **Chatbot to known individual prakriti**

designed an interactive chatbot based on Ayurvedic concepts to analyze an individual's prakriti (Body constitution) by asking questions and providing personalized guidance for lifestyle and health awareness

SKILLS

- Proficient in MS office (word, excel, PowerPoint)
- Basic python & LABVIEW programming
- Basic circuit design and stimulation & project management
- Microcontroller programming (Arduino, ARM cortex, Raspberry Pi) & Technical documentation

ACHIEVEMENTS

- Gold medalist in diploma biomedical engineering
- Student placement coordinator
- Smart India Hackathon - 2023 finalist
- Lead and manage content team at Sahitya Sarita-2024 (college's literature festival)
