Qualification:

Doctor of Medicine (MD),PGDCC in Cardiac Anaesthesiology completing in July 2018

Speciality

Anaesthesiology and Critical care, Cardiac Anaesthesiology

Educational Qualifications:

Year	Name of Education Institution	Degree / Diploma Post Doctoral Certificate Course (PDCC)	Title of degree/diploma and description of studies
2017 2018	Dr Prabhakara Kore heart foundation/KLE university		Cardiac Anaesthesiology And Critical Care
2013 2016	Command Hospital , Air force, Bangalore	MD	Anaesthesia and Critical care under Rajiv Gandhi University of Health Sciences, Bangalore, India

2001	Sri Jaya Jagadguru	M.B.B.S.	Bachelor's degree in medicine under
2006	Murugharajendra Medical College, Davanagere		Rajiv Gandhi University of Health Sciences, Bangalore, India

Clinical Expertise:

- Intubation in elective surgeries and emergencies, casualties.
- Spinal anaesthesia and epidural analgesia
- Labour epidural analgesia
- Central line placement
- Swan- Ganz Catheterization
- Peripheral nerve blocks using nerve stimulator and ultrasound.
- General anaesthesia for elective and emergency surgeries.
- Percutaneous tracheostomy.
- Management of electrolyte imbalances like hypo and Hyperkalemia, Hypo and Hypernatremia, metabolic and respiratory acidosis and alkalosis, diabetic ketoacidosis, HHS, type 1 & 2 respiratory failure, acute exacerbation of bronchial asthma, COPD, OP poisoning, paracetamol poisoning, sepsis, dengue hemorrhagic fever, cardiac arrhythmias, severe head injuries, spinal injuries.

Master thesis done for post graduation:

“Comparison between ultrasound guided and nerve stimulator techniques for Supraclavicular brachial plexus block in upper limb surgeries”

Conferences Attended:

1. Ramachandra Anaesthesia continuing education 22nd – 24th January 2016, Tamil nadu Medical Council.
2. PG EXCEL 2016, 13th & 14th February 2016. Mysore Medical College and Research Institute, Mysore.
3. TISACON 2015, 24th -26th July 2015. Shadhan Institute of Medical sciences, Telangana.

Workshops attended:

1. Workshop on U/S guided nerve blocks. Command Hospital, Air force, Bangalore.
2. Apollo Regional Anaesthesia Workshop. 8th June 2014. Department of Anaesthesiology and pain medicine with ISA.

Description of previous employment

Employed as the Medical Officer (MO) in Indian Army in the month April 2008 in one of the Field hospital, the primary task is to provide comprehensive medical cover to the body of troops with a minimum strength of 1200. The task involved providing medical cover to the remote posts and locations with minimum resources. With a staff of One

doctor and Eight assistants, the facility at the base location was equivalent to a primary care centre. Being the head of the medical team, the duties also involved co-ordinating the medical supplies in the periphery. The MO is also responsible for the hygiene of the troops and the camp to ensure a disease free and healthy working environment. The task also involved checking and monitoring the food supplies from the aspect of nutrition and hygiene. It is an important to note that the incidence of hygiene related diseases were NIL during the tenure.

As an MO, the officer takes up the role of a counsellor to the troops with varied domestic and personal problems. The MO is the advisor to the Commanding Officers on the health and employment aspects of the troops.

Apart from the duties of an MO, the undersigned also performed duties of Financial manager, Supply chain manager and HR manager on a locum basis with a total turnover to the scale of 40 to 50lakh rupees every year.

The undersigned was additionally responsible for IT wing of the Unit apart from his professional duties. After completion of 05 years of service in Indian army through NEET 2013 entrance examination joined MD in Anaesthesiology and Critical care in July 2013. Under one roof learnt Anaesthesia for OBG, GI Surgery, ENT, Oncosurgery, Plastic and Reconstructive surgery, Orthopaedic Surgery, Joint replacement surgery including Elbow, Hip and Knee replacement, Trauma, Neuro surgery, Urosurgery including Renal Transplants, Vascular surgery, Cardiac surgery And General surgery. During course period also trained to treat and manage cases in Intensive critical care And Intensive cardiac critical care. During ICU and ICCU postings learnt all invasive procedures including central line placement (using Blind and ultrasound guided methods), Arterial line placement (Radial And Femoral), Emergency intubation with and without Fiberoptic Brochoscope, Ventilator management and Percutaneous tracheostomy.

After completion of MD in July 2016, worked as Free lancer, Anaesthesiology in different small hospitals in different speciality surgeries till 18 Oct 2016. From 19 Oct 2016 to 19 Nov 2016 worked as Anaesthesiologist in City central hospital, Davangere, Karnataka. The undersigned presently working in SS Narayana Heart Centre, Davangere as Consultant, Anaesthesiology And Critical care from 21 Nov 2016 to Till date. The undersigned providing Anaesthesia cover to angioplasties, Permanent pacemaker placement, PDA and ASD Device closure, Cardio version of Dysarrhythmias and also taking care of patients admitted in Intensive Cardiac Critical Care unit. In ICCU, Undersigned also performing Emergency intubations, Central line placement through Internal jugular vein, External jugular vein and Femoral vein approaches, Arterial line placements, Temporary pacemaker Insertions and also performing ventilator management in Intubated patients.

Till 30th July 2017, I worked in SS Narayana heart centre, Davangere, Karnataka and I joined PDCC in Cardiac Anaesthesia on 01st Aug 2017 for 01 year period. Presently I am working as PDCC Candidate in Dr Prabhakara Kore heart foundation, Belgaum. I have exposure to all kinds of cardiac and vascular surgery cases. I have experience in handling and managing the cases like off and on pump Coronary artery bypass surgery, Mitral and aortic valve replacements, carotid endarterectomy, femoro popliteal bypass surgeries, congenital heart disease correction surgeries like ASD and VSD surgical closures, ICR, BD Glenn and BT shunts. I am able to conduct invasive procedures like central line placements,

Radial and femoral artery line placements, Intubations, ventilatory managements in peri op and post op patients. I am going to complete my PDCC in cardiac Anaesthesia on 31 July 2018.

Declaration:

I, hereby affirm that the above given information is true and to the best of my knowledge.

Dr.Sujith.H.M.
