PROFESSIONAL SUMMARY

Driven Quality Manager with over 9 years of experience in developing, implementing, and maintaining quality management system in the current organization. Proven expertise in regulatory compliance, process improvement, internal audits, and team leadership. Adept at driving continuous quality improvements, ensuring customer satisfaction, and aligning quality objectives with organizational goals. Strong knowledge of NABH, NABH-ER, Nursing Excellence, Safe OT (Bureau veritas) and NABL accreditation, and risk management frameworks. Recognized for building cross-functional collaboration, fostering a culture of quality, and delivering measurable results in efficiency and compliance.

CAREER OBJECTIVE

To obtain a challenging and rewarding position as a Quality Manager where I can utilize my expertise in quality assurance, compliance, and continuous improvement to enhance operational efficiency, ensure regulatory adherence, and drive organizational excellence. I aim to contribute to a culture of quality and innovation, while supporting strategic goals and delivering value to both internal stakeholders and end customers.

CORE COMPETENCIES

• Quality Assurance & Control

Expertise in designing and implementing quality assurance protocols aligned with NABH/NABL/ISO standards.

• Accreditation & Compliance

Strong knowledge of NABH, NABH-ER, Nursing Excellence, NABH-MIS, Bureau Veritas, and other regulatory frameworks; adept at preparing for audits and maintaining continuous compliance.

• Clinical Audit & Data Analysis

Skilled in conducting internal audits, RCA (Root Cause Analysis), and using data to drive quality improvement initiatives.

• Patient Safety & Risk Management

Proficient in developing and managing patient safety programs and incident reporting systems.

• Standard Operating Procedures (SOPs)

Experienced in drafting, reviewing, and updating SOPs to meet best practices and regulatory standards.

- **Training & Capacity Building**

Competent in organizing training programs for clinical and non-clinical staff on quality, safety, and compliance topics.

- **Stakeholder Engagement**

Effective in coordinating with cross-functional teams including medical, administrative, and support staff for quality initiatives.

- **Documentation & Reporting**

Detail-oriented in maintaining documentation, MIS reporting, and preparing management review reports.

- **Customer (Patient) Satisfaction Initiatives**

Skilled in measuring and enhancing patient experience through surveys and action-based feedback systems.
